PBXACT

Flexible and Customizable Business Communications

PBXact is a fully-featured business communications platform, based on open-source technology which makes fit virtually any deployment type requiring complex configuration and customization. The integrated online portal store enables instant add-ons of advanced features, such as contact center functionality.

Integrated SIPStation™ SIP Trunking Service

Sign-up with the award winning SIPStation service directly from the administration GUI and automatically configure within seconds. No need to look further for VoIP service or need technical knowledge to set up.

S-Series IP phone integration

Zero-Touch Provisioning
Out-of-box automatic configuration with Sangoma's S-Series IP phones, from anywhere in the world. The EndPoint Manager Tool within the administration GUI enables centralized control of every phone's configuration and firmware.

Powerful S-Series IP phone features
Users can now control complicated features directly from their phones right out-of-the-box. There's no need to memorize hard to remember feature codes!

Remote Worker Friendly
Desktop and mobile apps deliver HD video calling, screen-sharing and chat for sales, support or contact center staff.

Flexible Deployment
PBXact is available on certified Sangoma appliances, as a software for your own hardware and virtual machines, and as a service (Saas) for partners to offer to their customers.

Web-based Dashboard
User Control dashboard lets every user manage their own call settings, conference call rooms, voicemail and contact center features via customizable widgets.

Integration With Your Existing Tools
Built-in click-to-dial and screen-pop for web-based Customer Relationship Management (CRM) tools.

Advanced Recovery
Avoid catastrophic failure with the Advanced Recovery module which delivers automatic failover to a secondary PBXact system.
