

Mobile Interactive Display with Heavy-Duty Stand and Lithium-Ion Battery System, 4K, 65 in.

MODEL NUMBER: DMCSTP65CBP

65 in. interactive touchscreen with Windows 10 PC, Android OS and rolling stand promotes team brainstorming and collaboration sessions.

Features

An Advanced All-in-One Presentation Platform Perfect for Group Brainstorming Sessions

Introducing Tripp Lite's Mobile Interactive Display. Designed to encourage and assist group collaboration and audience participation, this all-in-one game-changer integrates a best-in-class 65-inch 4K interactive touchscreen flat-panel display, heavy-duty mobile stand and rechargeable battery system.

Take Information Directly to Your Audience Anywhere

The DMCSTP65CBP helps you promote collaboration, enable interactive presentations and facilitate communication between local and remote teams. It's ideal for conference rooms, meeting rooms, classrooms, libraries and office environments in corporate, education, healthcare, commercial, hospitality, retail, government, defense and public safety settings.

Designed for Dynamic Interactivity That Lets Everyone Be Part of the Team

At the heart of the Mobile Interactive Display is a full-featured, touch-enabled Windows 10 PC and an embedded Android operating system. Built-in wireless networking, remote screen sharing and a wide range of pre-installed tools aid problem-solving and free expression of ideas. In addition, the detachable high-definition webcam beams the entire meeting area straight to off-site collaborators and partners, allowing anyone to participate in meetings, presentations and group discussions from any location.

All the World's Information Available, Literally, at Your Fingertips

The 65-inch 4K display boasts patented touchscreen technology with low-latency response and 20 points of multi-touch. Use your fingers or the included battery-free stylus to write notes, check email, create presentations, stream 4K video and surf the web. Share resources with your fellow team members, and save them in the cloud. The large touchscreen monitor is built for ultra-fast, ultra-precise interactivity for multiple concurrent users. It all makes for an immersive and expansive experience that basic electronic whiteboards can't match.

Comes Ready to Roll Wherever You Need to Go

A mobile stand with four-inch wheels allows you to roll the all-in-one unit into any office, meeting room, lecture hall or classroom best suited for cost-efficient resource sharing. Ease of movement allows collaborative workflow to happen in any location and maximizes usage to increase engagement, creativity and productivity. Further supporting this goal, a rechargeable lithium-ion battery system powers the display for up to 90 minutes without being plugged into a wall outlet.

Highlights

- Razor-sharp 65 in. 4K touchscreen display ideal for interactive presentations
- Windows 10 PC and Android compatible with wide array of apps and hardware
- Heavy-duty mobile stand with 4 in. swivel casters moves where the meeting is
