Door Answering and Audio Monitoring Sets

For Residential and Commercial Applications

Features & Benefits

- **Replaces doorbell, easy to install**

Reduce installation costs by using existing doorbell wire. No doorbell? *No problem!* The system only requires two wires, making installation a snap!

- **DC powered or battery operated**

Choose your preferred method to power the system: a 6V DC power supply or 4 C batteries

- **Pull cord included**

Mount the master station in the exact location of an existing doorbell chime and use the pull cord to communicate

- **Door release**

Push the door release button to conveniently unlock the entrance directly from the master station

- **Audio monitoring**

Discreetly listen to activity at the door station with either the push of a button or the pull of a cord

- **Affordable system**

Maintain your budget with this affordable, simple to use system

- **Reliable and designed to last**

Install the system and have trouble-free use for years to come!

Upgrade any doorbell to an Aiphone intercom for 2-way communication at the door!

Components

Door Station, Master Station, and Adaptor Kit

C-D
