

# Introducing the **INTERACTIVE CONSOLE**

Send live or pre-recorded audio and text with the push of a button.

## What it can do

- Sends pre-recorded audio files at the push of a button
- Sends microphone pages (both “Live Mic” and Record & Send for feedback elimination)
- Sends text messages to LED signs
- Makes/receives bi-directional voice calls to Valcom and SIP endpoints
- Receives audio pages
- Simple configuration via web browser interface
