

UNIFIED COMMUNICATIONS

With Vertical Summit2400

SIMPLE UNIFIED COMMUNICATIONS

Vertical Summit2400 is a unified communications platform from Vertical Communications and Ericsson-LG Enterprise designed to help organizations communicate and collaborate with all of their stakeholders. Summit2400 helps people across your business be more productive and efficient regardless of their location or chosen device.

Simple Unified Communications

Unified Communications capability is built in to Summit2400. Use voice, video, instant messaging, conference calls and visual voicemail, all on one simple and easy to use platform. UC is designed to be intuitive and provide your team easy to use tools and features.

Reliable and Resilient

Total reliability is the only option for your communications. Summit2400 UC delivers complete resilience through geographic redundancy and inherent modular architecture.

Anytime, Anywhere Connectivity

Access the power of your Summit2400 Unified Communications platform regardless of your device or location using smartphone, tablet or PC applications.

Tailored to your needs

Summit2400 offers a range of enhanced applications from Vertical Communications, Ericsson-LG, and specialist application providers. Integration into standard office applications such as Microsoft Outlook or Lync means your communications are truly integrated.

The latest standards-based technologies

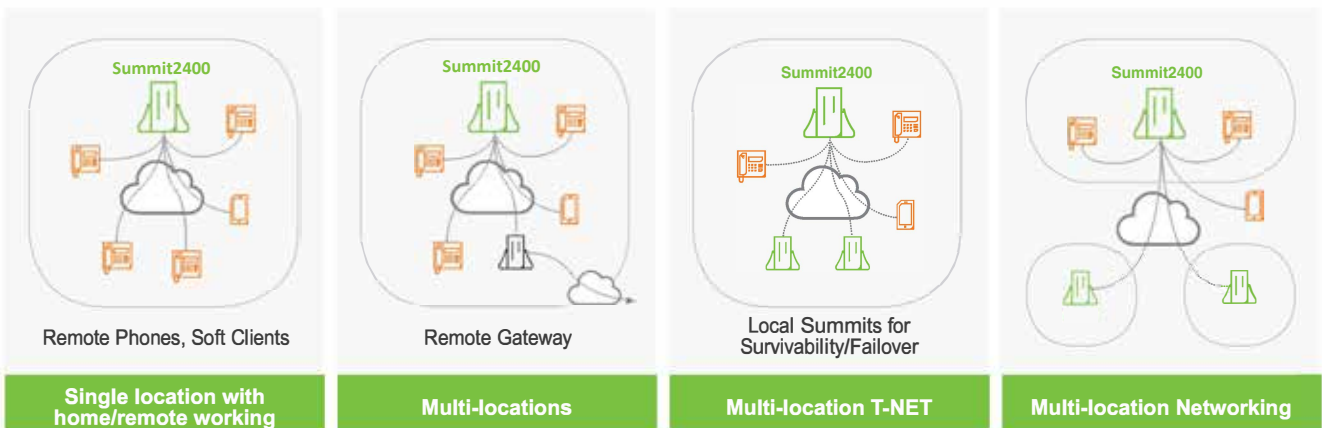

Summit2400 helps you to make the most of the latest network technologies such as SIP, optimize call costs using WiFi or use in-built voice conferencing to save on external conference services.

Scale with your growth

Summit2400 is designed to deliver flexibility as your organization grows. Your communications can easily adapt to meet changing needs.

Flexible deployment options for multi-site environments

Unified Communications For All Of Your Team

MANAGING DIRECTOR

"Summit2400 helps me run my business, provide the service my customers need and control my costs. Every member of the team gets the communications tools they need to do a great job."

OFFICE MANAGER

"The wallboard tells me and the team when we all need to grab the phones and simple reports help me stay on top of costs and response times."

MOBILE SALES EXECUTIVE

"I can take my office phone extension with me wherever I am as my smartphone is integrated into the system meaning my customers can easily reach me anytime and colleagues can see when I am available."

SALES AND SUPPORT AGENT

"I can support my customers better as they know what's happening if they ever have to queue. There's a simple announcement telling them where they are in the queue and the call is quickly delivered to the right person in the team."

GLOBAL ACCOUNT MANAGER

"Traveling abroad used to mean lots of expensive calls to the office and restricting call home to my family but with Summit2400 UC technology on my smartphone and laptop I can easily call at local rates wherever I am in the world."

WAREHOUSE SUPERVISER

"My mobile DECT handset means wherever I am everyone can still easily reach me."

RECEPTIONIST

"I can quickly see what everyone is doing and transfer calls with a single button or mouse click. It's never been easier."

IT MANAGER

"With a simple and intuitive web interface I can make changes myself and complete handset moves efficiently and easily."

HOME BASED WORKER

"I use my phone just the same at home as if I was in the office. Being able to see the status ("presence") of my colleagues and instant message quick questions makes me feel just like I am sitting next to my team."

Unified Communications Overview

Communicate, collaborate and boost productivity, regardless of your location or chosen device.

Your Unified Communications Strategy

Summit2400 UC delivers the tools and features to support your team, including:

Easy UC

No additional hardware options to deliver standard UC to your team. Just choose your licences and go.

Mobile

Access the power of Summit2400 UC wherever you are with the intuitive Summit2400 UCS mobile client.

Video

Bring interactions alive with video calls from your handset, PC client or smartphone application.

Presence & Messaging

Easily connect with colleagues over phone, video, instant messaging or web collaboration.

Application Integration

Integrate Microsoft Outlook into your Summit2400 with simple integrations of schedule, contacts and click to call.

Packaged and Scalable UC

Choose which version suites your business by identifying the options below that accommodates your users needs, Summit2400 UC can scale with your business as your needs and requirements develop from Standard to Premium.

Summit2400 UCS server types

Type 1

UCS Standard (Built-in)

Built in UC Server for Summit 2400
Cost effective and easy to deploy

Type 2

UCS Premium (External)

External Windows UC server*
Advanced features, collaboration tools and capacity

*For PC spec see datasheet

Evolve Your Needs

Please note that features are non-transferable between the Standard and Premium options.

Each software client can be embedded with a softphone enabling you to make calls directly from your PC. Alternatively, choose the "without voice" option to continue using your desktop handset alongside the application.
